

WIRE WINCH

PL-200 is a single phase wire winch, rated for load capacity 200kgs. Compact and lightweight design turns it perfect mobility on the move. Single-phased motor makes the operation quick, simple and easy as it can plug up in anywhere the AC power is on hand. It is fabricated with dia.5mm stainless steel wire rope in 30M lengths with lifting speed 23M/min, rather ideal for those small-to-medium scales of venues or time-consuming rigging application with less heavy load. With its light-duty and portability, PL-200 can be the great rigging solution to the need.

Supplied with two handcuff couplers for ready to rig on 2" tube.

Heavy duty chassis for maximum durability.

Finished in matt black powder coating for less visibility.

Dual braking system combines dynamic and mechanical braking, provides instant and safe braking.

Precision machined gears heat treated for strength and durability, the ball or needle bearings at all rotating points run in oil bath lubrication for a quieter, smoother and cooler operation

Built up with insulation class F motor for 300 starts per hour; ED 30%.

FEATURES

The lower limit switch is designed in order to prevent wire rope under-wound.

Upper limit switch will be triggered when hook disc touch it; the motor will automatically stop for safety.

360°swivel hook for freely movement; wire terminated with double aluminum sleeves for further security; thimble provides greatest protection to the wire from the wear of contacting latch.
